OTHER THINGS TO KNOW:

Photo format should be the *largest* resolution RAW format your camera can process.

On average, the 605 team edits 25-40 of images per article. Please try to not to deliver more than 200 images.

Aim to shoot a healthy mix of vertical and horizontal images, especially when capturing food and/or portraits. This gives 605 more flexibility with the article layout.

Payment is \$50 per shoot if in the same town and should take roughly 30-60 minutes. More is discussed for travel.

605 asks that you please:

- Represent yourself professionally when on set for a 605 photo session and be punctual.
- Meet deadlines and communicate any progress with the 605 team.
- Submit your unedited RAW photos to your assigned freelance Dropbox.
- Don't share images with anyone outside of the 605 team. 605 reserves the right to sell the galleries after the issue is made public.
